

Worksheet 3:

Research questionnaire

Section 1: Current awareness of the need for sun protection

Write four questions which will help you find out whether your target audience protect themselves in the sun. For example, do you wear 15 SPF sun cream? You might want to add 'yes', 'no', 'sometimes' tick box options.

1.

2.

3.

4.

Section 2: Existing shade provision

Write four questions to help you find out about the existing shade available at your school, and whether your audience uses it.

1.

2.

3.

4.

Section 3: Possible locations

List 4-5 possible location ideas and ask participants to select their preferred location, record results in simple tally.

Section 4: Options for the structure

Show participants a selection of existing sun shade designs from professional manufacturers. Ask participants to select their favourite design, record results in a simple tally.

Section 5: Options for the materials

List possible materials for the sun shade (to include eco-material) and for the supports (metal, plastic, rubber) and ask participants to select their favourites, record results in a simple tally.
