

Losing our Patience

Discussion suggestions to use if your local Senedd election candidate, or their representative, knock on your door:

-  Cancer services in Wales - both nationally and locally - must be fairer and faster, which is why I support Tenovus Cancer Care's campaign, Losing Our Patience.
-  Surviving cancer shouldn't have to depend on where a person lives or their background. Yet for too many people, this is the reality.
-  Cancer affects almost every family in Wales, and the voices of patients and people affected by cancer should be listened to by the Welsh Government.
-  If comfortable doing so, share any personal experiences you have.
-  How would you support action to improve cancer services and outcomes across Wales?
-  People in the most deprived areas in Wales are 20% more likely to develop cancer than people living in the least deprived areas. Did you know that Tenovus Cancer Care are working to try and close that gap?
-  Learn more about Tenovus Cancer Care's priorities for improving cancer outcomes for people across Wales. Their priorities reflect the lived experiences of people affected by cancer in Wales and draws on evidence of where the system is currently falling short.
