Organelles that give the cell its energy

Bonus activity (3)

Creative Cells

Using the diagram as a template, make your own cell out of play-dough, Lego, or anything you can find around your house, like cereal boxes and bottle tops!

We'd love to see pictures of your cell creations! Share them with us on social media

@tenovuscancer @TCCresearchteam #CreativeCells

The part of the cell that makes ribosomes

Outer layer of the cell that / allows some things in and keeps some things out

Jelly-like substance that fills the cell

These clean the cell by getting rid of unwanted substances

These make things the cells need to function, such as proteins

If you need a clue... all the words you need are here!

Zoom in to see the answers.
